SUMMARY

I am a frontend developer from Nairobi, Kenya.
I mostly work on frontend projects but have had experience with backend development and I have an eye for design.
I also do 3D art and animation as a hobby.

PROJECTS

Sirav

Website: https://sirav.onrender.com

Github: https://github.com/Robby-apt/sirav

This is a portfolio website for a Kenyan-based music producer.
It is built using **React** and **SCSS** for the frontend and a **NodeJS** and **Express** server to handle contact form submissions and send the information to his email.

It contains a samples section where some of his music can be heard. This section has a custom-built media player that with audio controls.

The Coiffeur

Website: https://the-coiffeur.onrender.com

Github: https://github.com/Robby-apt/the-coiffeur

This is a website for a fictional hairdresser's shop.
It is a purely frontend website built using **React**, **SCSS** and **Bootstrap**.

It has a landing page with information about the organization and a booking page for making reservations online

Arthur Chege

Website: https://arthur-chege.onrender.com

Github: https://github.com/Robby-apt/arthur-chege

This is a portfolio website for a Kenyan 3D artist named Arthur.
It is built using **EJS**, **SCSS**, **Bootstrap**, **NodeJS** and **Express**.

It has a landing page, a portfolio page to showcase some of his art and a contact page.
